PROJECTS

Policy Assistant | Python, LangGraph, FastAPI

- Built a stateful RAG pipeline with document chunking, embeddings, FAISS retrieval, reranking and tool calling; evaluated answer quality with RAGAS on a golden set.
- Implemented async FastAPI endpoints backed by PostgreSQL and Redis caching with retry and error handling; deployed with Docker on AWS.

Support Triage Agent | Python, LangChain

- Developed a multi-agent workflow with conversation state and function calling for ticket routing.

EXPERIENCE

Backend Intern | Acme Labs | Jun 2025 - Aug 2025

- Wrote unit tests and integration tests, added rate limiting and structured logging to REST APIs.
